Load Assessment for Solar PV System

Example:

Item	Quantity	Watts	Hrs/day	Days/week	Watt-Hours
Television	1	100	5	5	357.14
Computer	1	350	8	2	800.00

One television used weekdays for 5 hours/day and one computer used over weekends for 8 hours per day. To determine Watt-Hours = (Quantity x Watts x Hours/day x Days/week) / 7

Item	Quantity	Watts	Hrs/day	Days/week	Watt-Hours
